

S.T.O.P. TECHNIQUE

S. Stop

Stop. In this first step, we will allow ourselves to take a moment to recognize that there are strong emotions involved in this situation or that we simply need to have a moment for ourselves.

T. Take a Breath

Take a Breath.

Breathe, Next, we will calm our nerves by taking a breath and drawing our attention back to our body Take as much, or as little time as you need here.

O. Observe

Observe. Think about what you're feeling right now. Start with your body. Is your heart rate elevate- Ed (sweaty palms)? Then move to your emotions (Which emotions do you feel specifically?), and fi- Nally examine your thoughts (What thoughts come from and are influencing your beliefs?). This will help to reveal your true beliefs and insights.

P. Proceed with Wisdom

Proceed with Wisdom.

As you reach the end of the practice, consider the personal insights you've come to realize. Use these to determine what a wise course of action would be in order to get into a more positive mindset and proceed effectively.
